---

Computer Science BS with minor in Economics from University of Maryland, Baltimore County  
Hobbyist level experience in Linux system administration and Linux server management  
Experience in Vulnerability resolution and network management  
C++, Python, Java, Assembly

## Professional Experience

---

United States Patent and Trademark Office (USPTO)

**Patent Examiner** (Oct 2025 - Present) | Art Unit 2611, Computer Graphics

- Examine patent applications in the computer graphics art area for compliance with USPTO statutes and regulations, including 35 U.S.C. §§ 101, 102, 103, and 112
- Conduct prior art searches across U.S. and international patent literature and technical publications to evaluate novelty and non-obviousness of claimed inventions
- Draft and issue Office Actions communicating examination findings and legal reasoning to applicants and patent attorneys

Maryland Department of IT

**Client Services Intern** (May 2023 -May 2024)

- Vulnerability Remediation and Detection using management tools such as Tenable and Tanium
- Windows 10 Vulnerability Remediation project focusing on reimaging of machines belonging to multiple state agencies, such as Department of Agriculture and Department of Natural Resources
- Remote IT Support using BomGar including remote software and OS updates
- Provided remediation training to apprentices

Talen Energy

**Cryptocurrency Specialist Intern** (May 2022 - Aug 2022)

- Assisted in establishment of Nautilus Cryptomine powered behind the meter by the Susquehanna nuclear plant to produce 300 MW of Bitcoin mining capacity
- Facilitated communication between contractors and stakeholders involved in the Cumulus Campus project
- Used networking tools to prepare equipment for Nautilus campus, and assisted testing and setup of Antminers and other Cryptomine equipment.

## Other Professional Experience
